Your Beach and Yoga Vacation

A fantastic **wellness retreat** awaits you right off the beautiful beaches of the Dominican Republic! Want to sleep surrounded by **lush** vegetation after a **relaxing massage** and start your next day in paradise with an invigorating **yoga** class? Then you will love this offer from **Destination Wellness!**

Enjoy a memorable 7-night vacation on the shores of the **Caribbean Sea**, where you will **pamper** both **body** and **soul** thanks to a variety of exciting experiences: from a centering walk on the property's "**Buddha Path**" to discovering **tropical**

fish swimming along a coral reef during a **snorkeling** trip, to the adrenaline rush of "flying" down a **zipline**, your stay will be packed with **unforgettable memories!**

Q: What will my bungalow be like?

A: Built using **natural** and **local materials**, with ceiling fans and screened windows to maximize circulation of fresh air and **positive energy**, you will better connect to the **lush nature** around you. Terraces, lounge areas, comfortable couches and/or hammock welcome you to a **peaceful rest**. Don't forget to visit the temple next to the sea **surrounded by jungle** and practice **meditation!**

Q: What activities will I be able to participate in?

A: If a daily **yoga** class, 3 **sauna** sessions and 3 wonderful half hours of **massage** aren't enough, Destination Wellness has scheduled 3 phenomenal excursions! How does snorkeling around **Cayo Arena** sound? How about you also delight in a **lobster** lunch and a **boat ride** through a **mangrove**? What do you say we board a **catamaran** and **snorkel** in **crystal clear waters**? Buffet included onboard! A third excursion will include **beaches**, **lagoons**, a **cave**, a **cenote** (natural pool) and a **zipline** experience! So much planned!

Q: Tell me about meals on the property!

A: The property features a small but lovely **orchard** where banana trees, almond trees, peppers, lettuces, tomatoes, and other fruits and vegetables and herbs are grown. Meals in **two open-air restaurants** are designed to incorporate local ingredients and as much produce as possible from the property's **organic garden**. Menus feature a fusion of **fresh, tropical local ingredients** combined with Indian, Mediterranean, and Asian flavors.

Yoga and Wellness in the Dominican Republic
